

Introducing intelligent lectern systems convenience

Diepmaat 16, NL-9431MP Westerbork The Netherlands, info@intelligentlecterns.com www.intelligentlecterns.com

ILS develops out-of-the-box presentation solutions for conducting seminars, lectures, meetings and conferences. The systems add productivity and professionalism to any event. ILS' new technology is the result of many years of experience in servicing the international pro-AV markets, in display technology, in the development of simulation and training software, gaming and world-class design of Graphical User Interfaces combined with global manufacturing efficiencies.

Presenters today use tools such as Microsoft PowerPoint for visual support of their speeches. Exploiting technology in meetings and conferences frequently causes disruptions due to different system settings, synchronisation difficulties with projectors and exposure of cluttered desktops. ILS minimizes delays and provides new levels of functionality.

Productivity and Professionalism are the key parameters to ILS presentation solutions.

Intelligent Lectern Systems:

- Use very simple intuitive means to realize a professionally conducted event
- Efficient teaching & eLearning solutions
- Contribute to improvement and retention of presentations
- Improve the presenter's confidence and perceived authority
- Provide compact industry standard solutions
- Provide good long term support and lower production cost
- Reduce cost of custom built lecterns
- Help avoid meetings exceeding their schedules

ILS coined the concept of the intelligent lectern and defined it as a lectern with integrated PC and large touch screen combined with an intuitive user interface to control multiple Powerpoints. The presenter gets to view more information on the screen than is visible to the audience. An appliance-like intelligent lectern often includes simple switching capability for external devices to access the projector; extended and cloned dual display modes; and includes wiring for a cardioid condenser microphone. Basic ILS systems may be customized by AV System Integrators to fill client needs more easily.

Hardware

ILS creates and distributes a range of digital lecterns with integrated large touch screens and modern PC power, compact floor standing models, marked differences in style and function, pen- and/or easy finger touch interaction. Apart from the pedestal and cabinet based models, there are portable lectern systems for table top use and lectern integration modules with the same functionality for mounting in wooden lecterns, podiums as specified by architects. ILS is a unique company offering the widest and most complete set of presentation systems. See www.intelligentlecterns.com for up-to-date information.

Software

Sho-Q Seminar Planner and Presentation Delivery Support System is specially developed for intelligent lecterns with large touch screens for quick and easy control. Sho-Q is a completely intuitive interface to present PowerPoint files using very advanced properties:

- The ability to control multiple presentations from within the application allows fast presenter changes and seamless continuity
 - The presenter sees the current slide, next and previous slide, slide notes and a timer
 - Context-sensitive semi-translucent control elements appear only when needed to view, they let the presenter easily control embedded media, animations and staged slides
 - Ability to set up an entire seminar of different presenters within a single sho-Q structure for a one-touch start of each presentation
 - Automatic inclusion of presentations brought on USB-sticks and its proper deletion when removed.
- See [website](http://www.intelligentlecterns.com) for a complete overview

Interactive lectures and team work: the SpeakersCorner Lectern family

ILS 16P SpeakersCorner

Beautiful workmanship in a pillar style pre-wired lectern with tilt-able touch display options. Includes 4-way USB and serial rotary dial plus EXTRON 4-way VGA+audio switch to select inputs: internal PC and 1-2 extra notebooks and/or visualizer.

An additional 2-way VGA/audio switch assures continuous display. Inside cabinet is ample room for any common PC. 2 Microphones sockets, LAN and USB hubs. Comes pre-wired for all devices.

ILS 16PV includes ILS 19"W or 22"W pen display

ILS 16PW includes Wacom DFT720 17" pen display

ILS 16PS includes SMART Sympodium ID370 17" pen display

Upon request we integrate our standard PC solution.

There is room for 2 extra notebooks or visualizer on the wing tables. Just plug them into the connectors present.

Swiss design, German built quality

ILS 24P SpeakersCorner

Same power, more flexibility, more space... full 19" square rack inside. Insert a powerhouse for streaming presentations, control audio and camera. All the tools integrate into one beautiful podium to broadcast your subject or for teamwork play..

Dual switching for continuous display

ILS16 & ILS24 Tablets adjustment convenience

ILS 24PV includes ILS22"W or 26"W pen display

ILS 24PS includes SMART Sympodium DT770 17" dual touch display

ILS 24G includes ILS22G APR glass touch PC plate

ILS24HX includes mounts for 22" ELO, SMART, WACOM touch

displays and 12" touch monitor, secure access, 12U 19" rack

ILS24HF includes complete control system and audio

Install Sho-Q Presenter to instantly access multiple presentations seamlessly

ILS holds all design, production and marketing rights worldwide to the SpeakersCorner family.

Alternative Lecture solutions:

ILS14A Maestro all-in-one education lectern

The ILS14A is a very complete and comprehensive interactive lectern that is priced very aggressively

It includes extensive equipment for interactive display, room control, video and audio.....:

- ❖ solid completely lockable lectern with internal 19" rack, 80 cm [18U] tall space and keyboard tray
- ❖ ergonomic use of electric tilt-adjustable 20" tablet monitor with pen and pen support software
- ❖ extensive equipment control system, pre-programmed with 7" touch control panel on top
- ❖ integrated gooseneck microphone, 2 wireless microphones, mixer and 240 Watt amplifier
- ❖ programmable room control for projectors, camera's and other devices from the control unit
- ❖ notebook hook-up on top of the lectern next to the monitor with source switching (and camera input)
- ❖ DVD and VCR combo under the same program control of the 7" touch panel (free against voucher)
- ❖ Sho-Q Presenter system for instant delivery of multiple Powerpoint presentations
- ❖ 1 year module exchange warranty extensible to 3 full years including software updates
- ❖ Meets CE, UL, FCC certifications, RoHS compliance. Packaged in plywood crate
- ❖ A minimized delivery charge ex works Netherlands is added to its sharp price

ILS12X Workstation

ADA Compliant Lectern with electronically controlled hydraulic lifts for height adjustment;
High-end industrial PC in foot with dual VGA / 1 HDMI outputs;

Choice displays include:

- 19" Pen Interactive Wacom 900 series
- 22" SMART Sympodium ID422 or DT770
- ELOtouch 2200APR

Stylus Pen

Infrared audio system option

3 position tilt

cable management,

wheelkit,

side tables

on/off lock.

ILS Presenter lectern family

ILS 21RL Sho-Q Presenter Productivity Console

Comfortable 20" wide screen touch monitor with latest PC package on sleek but solid floor-standing solution. Lift height adjustment includes cable management. Comfortable grips, decoupled XLR mic socket and lighting over DIN A4 / A-size area next to the monitor.

Combined with sho-Q presenter support tools, the system adds confidence to the user
- and productivity to meetings - with seamless execution of multiple presentations.

Includes Core2Duo PC, Intel m/b, 2GB, 80GB HDD, XP Pro or VISTA
Front access: 3 USB, 1 Firewire, DVD, multi-card reader
Top: electrical height control switch, reading light switch
XLR3 microphone socket, XLR4 Littlite socket
Monitor: 20" wide screen resistive touch
Output: XLR3, PC audio jack, LAN, DVI-D
Optional output: VGA sub15

ILS 21RT: portable tabletop lectern version

ILS 22G Sho-Q-box Presenter Control Console

Our top model ILS 22G represents a series of very advanced all-in-one presentation solutions. The very versatile 1.5" – 3" flat package consists of touch glass lectern top, high performance industrial grade board PC and 22" wide monitor with control functions around the display.

Specifications: Front DVD slot, 4 USB.
Internal: Core2Duo T5500 80GB HDD
I/O: DVI-I, 3x RS232, 10x relays, LAN hub
MiniXLR3, MiniXLR4, PC Audio
Controls: on/off projector, lights, touch, audio level, microphone mute/adjust, display mirror/span, shortcuts to sho-Q, desktop, jump any other defined functions, and more...

All technology you wanted from a lectern is implemented in this 65 x 50 x 4 – 7 cm – a large pizza box – package. Drop in, or integrate on any wooden custom designed lectern or podium, lay it on the table as a portable lectern, or buy it with the ILS electrical lift pedestal or its SpeakerCorner cabinet for a complete solution. *All lectern and presentation functions can be controlled from a control room PC.*

The ILS 22G makes use of ground-breaking multi-frame direct touch technology that uses multiple sensors to control both the touch screen driven software and selective back-lit touch fields for keyboard and mouse, for annotation, room and source control and direct PC control functions – all from a single glass plate. Function dependent lighting.

Includes 2 XLR microphone mounts on top of which one is pre-amplified. This is a 3" thick package, with all intelligence needed in a lectern that can drop into any lectern or podium, fitting architects and customers styling needs.

Custom glass touch frames possible. System integrators add value by programming the touch control functions to adapt the system to the client needs.

ILS 22G for integration purposes
ILS 22GL mounted on ILS's beautiful wide range electrical pillar and foot
ILS 22GT on table feet as portable unit
ILS 24G includes SpeakersCorner cabinet with 4-way and 2-way EXTRON switchers that are controlled from the ILS 22G glass plate, USB & LAN hub, full 19" rack inside lockable cabinet, wing tablets come pre-wired for notebooks/camera.

Alternative Lectern Solutions:

ILS17S Lectern Concept:One

Solid and beautiful styles with level integrated 17" SAW touch screen with toughened glass. Includes pull-out keyboard, trackball, pre-wiring for 2 microphones. VGA input switch for external notebook, generous 40 cm range electrical height adjustment. Industrial Digital Engine micro PC with Core2Duo 2GHz, DVD, XP Pro or Vista. Paint colour options. Sho-Q. Touch and go!

Options:

- wheel kit
- notebook tray

ILS17PS: PenLectern Concept:One

Same style ADA-compliant lectern with smoothly integrated SMART Sympodium ID370 interactive pen display.

- 76 – 116 cm wide range height adjustment

ILS 20S Digilectern

Unique lectern and kiosk. This product is specially designed for use in conference venues, business centres and hotels. If not in use as a lectern, the ILS20S can double as an interactive kiosk! Generous electrical height adjustment, switch for external notebook and tray, cup holder and built-in lighting. The big 20.1" touch display uses the "surface acoustic wave" principle for optimal feedback when touching and full display brightness in both positions. The ILS display manager assures that the image is adapted whether lectern or kiosk and maintains touch calibration. Comes with Sho-Q. Includes Core2Duo PC, Intel m/b, 2GB, 80GB HDD, 4 USB, DVD, XP Pro or VISTA. Paint color options.

ILS20SL: Includes electrical wide range height adjustment without kiosk mode
ILS20SF: Fixed height lectern

Desktop presentation solutions – Portability – Flexibility

ILS 15RT Tabletop Presenter

Most economical package to present productively and professionally with sho-Q software.

Resistive touch PC integrated 3GHz Dual Core power.
DVD, 4 USB, 2 Firewire, SD card reader, PC audio I/O, VGA out,
1 serial port, LAN, PS2 keyboard/mouse ports **on solid lectern oriented table top stand.**

Includes 2GB RAM, 20GB HDD, XP Pro and Sho-Q presentation management software license.

Order with Microsoft Office2007 and Sho-Q pre-installed to work right out-of-the-box!

The ILS 15R is aimed at the smaller meeting rooms to instantly access any presentation. Benefit from productive use in meetings, conference workshops and break-out sessions. No microphone sockets provided.

ILS 21RT Sho-Q Presentation Productivity Console

The rich features as in the ILS 21RL include insulated microphone socket and reading light option for the A4 paper tray right of the display.

ILS 22GT Sho-Q-box Lectern

All the practicalities of the ILS22G in a table top package.

Choice of microphones are placed in the insulated sub-frame, with or without pre-amplification. The touch glass is insulated from the rest of the lectern.

sho-Q Presenter Productivity: sho-Q, sho-Q7, sho-Q Lightning, room-Q, remote-Q

select form all presentations 1st slide / previous-current-next slide & notes / staged slide animation control / instant selection from all slides

annotate on slides and blank slides / mix presentation control and annotation from single monitor / take turns seamlessly around the table
remote control a presenter lectern
full remote assistance / streaming / surveillance
