

ILS prides itself to build the highest quality lecterns around from thick aluminum profiles, blocks and plates, machined to a perfect fit and style. The lecterns are virtually free of maintenance for decades. In ILS products it is possible to remove a damaged part and renew it, or to make new fittings for future upgrades without affecting the rest of the installed system.

ILS Synergy SC delivers ILS quality with a smart design. The solid top of the lectern is placed on a compact, narrow cabinet (Half Rack Cabinet).

The Synergy SC is the ideal smart solution for PC presentation. The integrated VESA mount allows the installation of a monitor up to 27". The micro PC is compactly located inside the cabinet. This lectern also provides two fixed horizontal side tables (can be upgraded to the flip or sliding tables). This makes it possible to use extra space for handwritten notes, laptop, or place a document camera on it. The built-in switcher or four sockets with the type on request will be great helpers when handling connections between the main screen of the lectern and/or laptop, or other devices. To do this, there are four buttons on the top panel of the product. There are also two USB 3.0 sockets and a holder with built-in charging cables for tablets and smartphones. The microphone socket is of the XLR shock-mount type.

The cabinet has a keyboard drawer and two lockable compartments with shelves to house a PC and other devices. The top compartment has a drop-down cover and a power strip to feed any laptop as well as hiding place for laptop power supplies. The larger compartment has a glass door and 2 shelves.

For mobility and rock-solid stability of the lectern during the presentation, four side-ways rollers are embedded in the bottom plate. In addition, we will be pleased to engrave your logo on the front panel of the lectern, in case of using the system in formal events!

DIMENSIONS

Width	<p>Top: 720 mm x 535 mm Side Plate: 300 mm x 370 mm Top + Side Plate: 1365 mm Cabinet: External: width: 485 mm height: 850 mm depth: 470 mm Internal: width: 305 mm height: 615 mm depth: 460 mm Tilt adjustment: 12° - 20°</p>
Height	<p>User side: 1010 mm Audience Side: 1140 mm</p>
Weight	80 kg

INTEGRATION

Display & PC	<p>Monitor: 24" Dell 2418HT IPS, 10 points capacitive touchscreen PC: Dell Optiplex 3070 micro Intel Core I-5 CPU; 8GB RAM; 256GB SSD;</p>
