

## ILS15R Presenter System

In Table top format, the ILS15RT is the most economical package to present productively and professionally with sho-Q software. The 19" screen is fully interactive with Resistive touch. The integrated PC has 3GHz Dual Core power. Extensive I/O features include DVD, 4 USB, 2 Firewire, SD card reader, PC audio I/O, VGA out, 1 serial port, LAN, PS2 keyboard/mouse ports on solid lectern oriented stand.

Order with Microsoft Office2007 and Sho-Q pre-installed to work right out-of-the-box! The ILS15R is aimed at the smaller meeting rooms to instantly access any presentation. Benefit from productive use in meetings, conference workshops and break-out sessions. No microphone sockets provided.

ILS offers a special lightweight wireless infrared microphone and audio solution based on state-of-the-art sound field expansion technology.

The ILS15RL provides the true lectern stand with a wide range adjustment, from seated use to a tall person standing, with a 35cm height adjustment range. The floor plate includes a lockable on/off key-switch; the top under the ILS15 monitor has a tilt adjustment in 3 settings: 12°, 18° and 24° for most comfortable operating position, and adaptation to local lighting conditions.

Side tables allow for placement of a mouse, auxiliary keyboard, documents or a glass of water.

## Use Sho-Q Presenter on your ILS15R

sho-Q software takes PowerPoint presentations to a higher level. It is specifically designed for lecterns featuring touch screens. Sho-Q supports presenters with intuitive slide navigation, easy transitions between multiple presentations and straightforward planning. No training is necessary.

The program offers agenda planning and seamless switching between sessions or presenters. It only takes 4 seconds to go from any slide in one presentation, to a slide in another presentation. The audience only sees a seamless transition.

When you use sho-Q Planner, preparing a meeting or seminar can be done in a matter of minutes. Sample screens:
